## WHO IS REMWAN?

**REMWAN CARRIERS LTD.** began operations in 1982, providing flat deck services to the pipe and steel industry. The company began with a single truck hauling pipe in Alberta, and 35 years later there has been up to 50 trucks and 200 trailers serving the western provinces and into the northern USA.

Our professional fleet combines both Company and Lease Operated units and incorporates a variety of company owned trailers.

Our newly built facility with a state of the art maintenance shop ensures that we exceed maintenance safety standards as well as minimizing equipment down time. Our 6.7 acre yard also offers parking and staging capabilities as well as client storage.

As we continue to grow, we have become more diversified in the services we provide for our valued customers. We are proud to continue to serve the pipe and steel industries, and also extend services to construction, agriculture, equipment providers and many more.

## OUR TRAILER DECKS
